YNPN #1

TITLE: You Need Progress Now

DESIGN PRINCIPLES:

1. Upgrade infrastructure; - roads, - bridges over and underpasses. – Sewer system especially the Hamburg drain in the city.
2. Protect farmlands in the N. Niagara and S. Erie County.
3. Rail connecting the city of Buffalo with suburbs through Niagara Falls and N. Niagara County such as Lewiston to cater the tourism + job access.
4. Revitalize/ Reuse what’s already available.

NOTES:

- More parking in Buffalo- Vertical such as eye-appealing ramp or underground garages.
- Downgrade the 198 to a parkway – calm traffic, make Delaware Park more accessible to pedestrians.
