Buffalo #20
TITLE: Bedford Falls
DESIGN PRINCIPLES:
1. Revitalize downtown
2. Radial development
3. Expand light rail
4. Waterfront access and protection
5. Walkable commerce
NOTES:
- Urban farming among restored “villages” of the East Side
- Lots of housing downtown
- Revitalize deteriorating neighborhoods (e.g. the East Side, Niagara Falls)
- Continued restoration of brownfields
- Keep the University at Buffalo connected with the city
- In our fantasy land we have tons of light rail
- Revitalize EVERYTHING in Niagara Falls. Jobs!
