On the Road Workshop #1 – Map #1

TITLE: **Coles**

DESIGN PRINCIPLES:
1. Emphasize areas with existing infrastructure to build environment for redevelopment.
2. Increase connectivity of public transit between urban areas.
3. Remediation and redevelopment of industrial brownfields.
4. Use public transit as guide for location of future development.

NOTES:
- Preserve, enhance or expand parkland.
- Privately financed public transport.
- Development of TN and VC, east to the medical campus.
- Development of VC along canal area.
- Development of 2 UC at downtown.
- VC at grant ferry district.
