Southtowns #1
TITLE: The Locally Grown Plan
Design Principles:
1. Create a 100’ buffer along the creeks.
2. Create traditional neighborhoods in decaying urban areas.
3. Create village centers in second tier towns and dense urban areas.
4. Create more rapid transit from current location to second ring suburbs-easy access into the city.
5. More bike trails along bio corridor to Springville; expand current industrial parks creating more jobs.
Notes:
- Blue lines and extended rail system.
- Fire works parks
