Tapestry Charter School #1
TITLE: None
Design Principles:
1. Bike Lanes (main street, Sheridan, Hertel, Colvin, Kenmore Avenue etc.)
2. Keep the new waterfront (expand)
Notes:
- The more bike paths, the better.
- Urban gardens in vacant lots.
- The central city should be focused in central cities.
- Houses should be pushed on towards the suburbs.
- Keep the new waterfront.
- Replace vacant lots with stores + activities where people can go to instead of houses.
- For what we already have.
- Fair down old homes.
